Description of the Event Computer Vision and Perception on 29th January 2023 from 10.30 A.M to 4.30 P.M. Among the 275 participants, 220 from Our College 55 from other college Delegates.

~~Head~~ Head of Department Dr. Sharanabasappa M Asst. Professor Godutai Doddappa Appa Degree College welcomed the speaker and also all the participants on behalf of the department. He explains the purpose behind the seminar.

For this event we invite as a Chief Guest & Keynote Speaker **Dr. Dange Sandhya Sudhakar** Associate Prof, Research Guide, Dept of Zoology Shri Madhavrao Patil Mahavidyalaya Murum, Maharashtra She gave her Key note on the event she explained very knowledgeable information to the student AI is important because it can give enterprises insights into their operations that they may not have been aware of previously and because, in some cases, AI can perform tasks better than humans. Particularly when it comes to repetitive, detail-oriented tasks like analysing large numbers of legal documents to ensure relevant fields are filled in properly, AI tools often complete jobs

Artificial neural networks and deep learning artificial intelligence technologies are quickly evolving, primarily because AI processes large amounts of data much faster and makes predictions more accurately than humanly possible.

She told about Advantages of AI

- Good at detail-oriented jobs;
- Reduced time for data-heavy tasks;
- Delivers consistent results; and
- AI-powered virtual agents are always available.

She told about Disadvantages AI

- Expensive;
- Requires deep technical expertise;
- Limited supply of qualified workers to build AI tools;
- Only knows what it's been shown; and
- Lack of ability to generalize from one task to another.

She gave a brief information about Strong AI vs. weak AI

AI can be categorized as either weak or strong.

- Weak AI, also known as narrow AI, is an AI system that is designed and trained to complete a specific task. Industrial robots and virtual personal assistants, such as Apple's Siri, use weak AI.
- Strong AI, also known as artificial general intelligence (AGI), describes programming that can replicate the cognitive abilities of the human brain. When presented with an unfamiliar task, a strong AI system can use fuzzy logic to apply knowledge from one domain to another and find a solution autonomously. In theory, a strong AI program should be able to pass both a Turing Test and the Chinese room test.

We invited as a Resource Person **Dr. Vikas Tukaram Humbe** Asst.Prof. & Director, Dept. of Computer

Science. Swami Ramanand Teerth Marathwada University, Sub Campus Latur (Maharashtra) Delivered began the lecture by Explaining the existence of "**Artificial Intelligence and Global Risk**" gain insight into future technologies. And also, he delivered detailed lecture on of "**Artificial Intelligence and Global Risk**" in day-to-day life. He gave hands-on training through various examples of "**Artificial Intelligence and Global Risk**" in software industries, which not only helped the students understand the concepts with ease, but also provided an insight on the real-time applications in the aforementioned.

And We invited one more Resource Person **Dr. Satishkumar Mallappa** Asst. Prof. Dept. of

Mathematical and Computational Sciences Sri Sathya Sai University for Human Excellence, Kamalapur, Kalaburagi. Delivered began the lecture by Explaining the existence of "**Computer Vision and Perception**" gain insight into future technologies. And also, he delivered detailed lecture on of "**Computer Vision and Perception**" in day-to-day life. He gave hands-on training through various examples of "**Computer Vision and Perception**".

Conclusion:

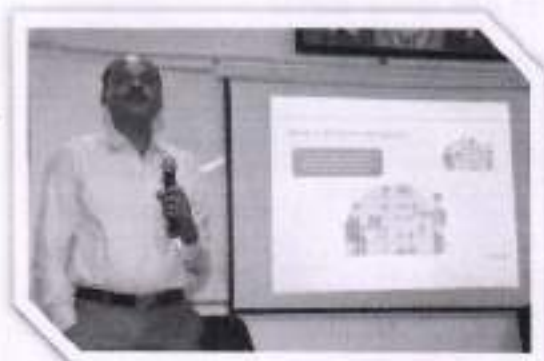

Artificial intelligence (AI), known by some as the industrial revolution (IR) 4.0, is going to change not only the way we do things, how we relate to others, but also what we know about ourselves. This article will first examine what AI is, discuss its impact on industrial, social, and economic changes on humankind in the

21st century, and then propose a set of principles for AI bioethics. The IR1.0, the IR of the 18th century, impelled a huge social change without directly complicating human relationships. Modern AI, however, has a tremendous impact on how we do things and also the ways we relate to one another. Facing this challenge, new principles of AI bioethics must be considered and developed to provide guidelines for the AI technology to observe so that the world will be benefited by the progress of this new intelligence.

Computer Vision:

computer vision is a field of computer science that uses tools like deep learning and convolutional neural networks to develop different ways to help computers see and understand different types of media, such as photos and videos

Department of Hindi was organised One day State level Seminar on "Rastriya Ekata me Hindi ki Bhoomika" on 27/12/2022. Dr. Ashok Kamble, Dean Karnataka State Open University Muktha Gangotri Mysuru was addressed, Hindi is the most important language of our country, where you go to any region of the country, you will find people who speak Hindi. This language in stills national love in everyone; it is a language that everyone can understand. There were ethnic languages in different states of the country.

He suggested that everyone should have an appreciation for the language and learn to speak it. The Inaugurator Dr.Chandrakant Patil,SBR PUCollege,in his inaugural Speech although there are hundreds of languages, the country is one, Hindi is the National language of our country, it attracts everyone. He said that everyone should give importance to Hindi language and develop it.

The Chair person of this Programme Dr.Neelambika Sharikar Principal in her Presidential remarks Poojya Dr.Appaji has given great importance to Hindi language and said that even though Kannada language is our state language, but most of the people speak Hindi language. So the students should learn Hindi language more and more.

Smt.Kalpana D.Mahindrkar HOD, of Hindi, welcome the gathering & given Introductory speech . Smt Janaki Hosur proposed the vote of Thanks. Kum.Pooja give a Invocation song .Sri Krupasagar Gobbur compering the Programme. All the Teaching & Non teaching faculty & Students were Present in the Programme.

After the Inauguration two sessions are Conducted.
